## PROJECTS

**github** - [www.vaishnavi-projects.com](http://www.vaishnavi-projects.com)

### 1) Calculator

 **visit :** <https://vaishu03-g.github.io/Calculator/>

A simple and user-friendly web calculator built using HTML, CSS, and JavaScript. It performs basic arithmetic operations such as addition, subtraction, multiplication, and division with real-time result updates.

The project focuses on clean UI design, DOM manipulation, and responsive layout for better user experience across devices.

### 2) Todo List

 **visit :** <https://vaishu03-g.github.io/Todo/>

A simple Todo List application created using HTML, CSS, and JavaScript to manage daily tasks.

Users can add and delete tasks easily through an interactive interface.

This project improved my knowledge of event handling, JavaScript functionality, and clean UI design.
